What happens next?

Once I've shut up

- Tea and a safe trip home!
- Enrol in modules.
- Presentations from the Symposium will appear on the website.
- SMSTC teaching starts Monday 9th October.
- Get involved in the wider mathematical community.
- Look out for future SMSTC events.
- Stay in touch with us...

Enrolment

You can enrol in and withdraw from modules on the website.

- You need to enrol in order to receive the Zoom details.
- Please enrol even if you're just "sitting in" or want to access the written material.
- Enrolment doesn't commit you to being assessed.

It's fine to try out some modules over the first week or two!

The mathematical community

- You can join the Edinburgh Mathematical Society for free.
  This is the society for *all* mathematicians in Scotland (not just
  Edinburgh!), founded in 1883.
- You may also want to consider the London Mathematical Society, the
  Institute for Mathematics and its Applications, the Royal Statistical
  Society. . .
- Your subject may have an email list that you can subscribe to (for
  conference/workshop announcements,...).
- You may want to participate in online communities such as
  MathOverflow (question and answer site for research maths).
- If you're teaching, you can join the University and College Union for free.

The Burn

Every summer, the Edinburgh Mathematical Society runs a three-day event at for PhD students (usually in their second year) at a country house.

The Burn

Every summer, the Edinburgh Mathematical Society runs a three-day event at for PhD students (usually in their second year) at a country house.

You're invited to give a short talk on a topic of your choosing.

There's lots of time to socialize in a beautiful setting.

Upcoming SMSTC events

- Supporting Postgraduate Students Who Teach
  Mathematics and Statistics

- Research Skills

Look out for further details later in the year!

Stay in touch

- Student reps (volunteers needed!)

- Informal feedback to members of staff

- Feedback survey in March/April: results are looked at by our Academic
  Steering and Management Group, and have led to improvements in
  module content, website features, ...
